CERTIFICATE

concerning aluminium drinking bottles SIGG

Compliance with requirements of the food law

The product **aluminium drinking bottles SIGG** has been examined for its compliance with requirements of the food law (see our test report nene01-034 of March 03, 2004).

The **aluminium drinking bottles SIGG** are offered in different sizes and with a variety of different closures. They are intended to be used for the storage and transport of any cold and hot liquid foodstuff. The bottles are designed for multi use.

Based on the results of the above mentioned assessment we confirm that the tested **aluminium drinking bottles SIGG** are with respect to the tested properties in compliance with the requirements according to art. 2 of Directive 89/109/EEC as well as the respective adoptions of these requirements into national legislation. The bottles also comply with the requirements according to 21 CFR 175.300 of the US FDA Regulations and the Swiss Bundesgesetz über Lebensmittel und Gebrauchsgegenstände (Federal Law on Foodstuffs and Commodities).

Under conditions of destined and foreseeable use the **aluminium drinking bottles SIGG** do not release components to foodstuffs which could give reasons for concerns with regard to human health and organoleptic properties of foodstuffs.
